

# FAITH MANUFACTURING

Faith Manufacturing has specialized in turning and milling components for oil field applications since 1985. Our 52,000 sq. ft. facility in Humble, Texas houses more than 41 CNC machines and supports the needs of global customers in the Subsea, Surface, Fluid Controls, Downhole, and V&M commodities.

## Capabilities

Our capable machining range is 1" to 33" in diameter, up to 4500 lbs., while not exceeding 65" between centers.

## Certificates

We are dual certified, possessing Quality Certificates for both API AQ and ISO 9001.

## GLOBAL

Faith Manufacturing has serviced the Oil & Gas industry across the globe for more than three decades. Our partners include companies like Cameron/Schlumberger, Halliburton, Dril-Quip, Technip/FMC, and GE/Baker Hughes.

## ON TIME, EVERY TIME

We pride ourselves in our 96% on time delivery record over the past 24 months.

## VENDOR PARTNERSHIPS

We have an established supply chain, partnering with the best vendors in North America for raw materials, heat treat, NDE testing, coating, cladding, many other processes, and all to our customer's specifications.

## QUALITY

Our commitment to quality means that we strive to exceed our customers' expectations and deliver products that meet your specifications.

## DUAL CERTIFIED

Faith Mfg., possesses Quality Certificates for both API Q1 and ISO 9001.

## INTEGRITY

What distinguishes Faith Mfg., from our competition is our practice of Extreme Ownership, our communication & our sincere dedication to Customer Service.

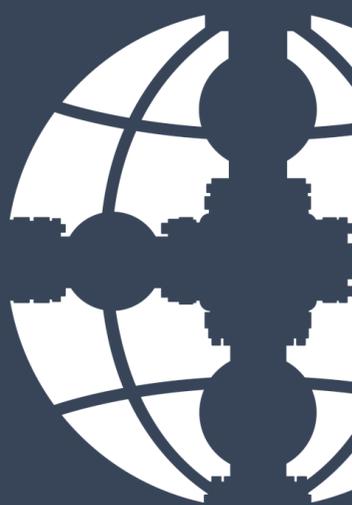

## EXPERT MACHINIST

Many of our machinists have been on our team for over 20 years. As we continue to grow, we look to pass that knowledge along to another generation of expert machinists.

At Faith Manufacturing we offer a comprehensive range of precision machining services. From small to large, our parts are not only precision machined, but also made from materials able to withstand the most abusive environments.

Precision machining, and three decades of expertise, have helped us provide our customers with high quality service that meets their complex challenges, every time.

1

## State-of-the-art machinery

To meet the requirements of cost-effective production and quality machined parts for the Oil & Gas industry, we have invested in state-of-the-art CNC machinery.

2

## Increased Efficiency

These tools allow us to manufacture your detailed components in less time with reduced costs, increased efficiency, and zero operational errors.

3

## Knowledge & Expertise

With 38 years of expertise, we have the knowledge and understanding of the complexities involved in manufacturing Oil & Gas parts. Our CNC machining covers services such as turning, milling, drilling, and surface machining.

4

## Skilled Machinists

We employ a team of highly skilled machinists that are capable of getting the job done accurately, efficiently, and on time!

5

## Quality defined by you

Our commitment to our customer encompasses continual improvements to our Quality Management System, and to achieve continuous improvement in customer satisfaction by delivering products, manufactured to exact customer specifications, on time.

# FAITH MANUFACTURING

There is a dedicated team at Faith Manufacturing that is ready to assist your group. Let us help empower you through precision machining.

Faith Manufacturing has been producing custom machined parts for government agencies, small businesses, oil & gas subsea operations and more since 1985. We have the ability to produce virtually any part or component needed up to 32" in diameter and 4500 lbs. We can produce any custom component, even prototypes, to your specifications.

Let us help empower you through precision machining.

- Valve components
- Subsea components
- Trees components
- Drilling components
- Blowout Preventer components
- Prototypes and R&D components
- And many more
